

Dear Friends,

September 11th will forever be the day when we recall all the pain that has been visited upon us.

But let it also be said that September 11th is the day that we devote ourselves to the families of those who were lost.

As we gather today to share the grief of the 344 families whose lives have been forever changed, it is our hope that this Memorial will help everyone to grieve and make certain that the events of September 11th will always be foremost in our thoughts.

I want to thank all of you for being here today. And, a heartfelt “thank you” to the hundreds of volunteers from Long Island’s labor unions and donors listed in this journal. Their time and generosity will also never be forgotten because, without them, this day would not have been possible.

So let us again offer to share ourselves, to help ease the pain of each family who has been so brutalized.

Thank you and God Bless.

Sincerely,

Thomas R. Suozzi
County Executive

Dear Friends,

It is hard to imagine that nearly six years have passed since that fateful day, September 11, 2001.

I am sure that everyone remembers where they were when they first heard of the attacks on the World Trade Center and the Pentagon.

As many wish they could forget the horror of that morning, it is important that we don't. We hope that this Memorial will do just that, serve as a reminder of that day for this and future generations while preserving the memories of the hundreds of people we loved and lost in Nassau County.

This Memorial was a tremendous undertaking and literally blood, sweat and tears have gone into it. We hope we have done our job and built a Memorial worthy of the sacrifice so many made on September 11, 2001.

A special "Thank you" to everyone who helped make this day a reality. It truly was a community effort and a labor of love.

Please take the time to read all of the names on the following pages of the victims, labor union volunteers and donors. Every one of those people are heroes today.

Sincerely,

Ian R. Siegel
President
Nassau County 9/11 Memorial Foundation, Inc.

Those We Lost...

in loving memory

In order to compile this list of names, we began a very intensive process nearly six years ago. The actual list of those who died on September 11, 2001 is not public information so, therefore, we had to compile the list of Nassau County victims ourselves.

Initially we had heard the number of Nassau County residents lost was 281, however, we realized that that number only included those who actually lived in Nassau County on Tuesday, September 11, 2001. Once we began to reach out to compile our own list, we realized there were many who grew up or lived in Nassau County at one point in their lives and moved away who still had friends, family or loved ones still living in the County who wanted these names included. Therefore, we made a decision to open the list to those who had lived in Nassau County for at least five consecutive years anytime in their life. The list then grew to 344. We then went through a rigorous process of verifying the information, making sure names were spelled correctly and all other information was correct.

For many of us who worked on this project, some of the most meaningful days were when family members were invited to come in to sign off on the information for their loved ones before the list was sent to the stonecutter to literally be etched in stone.

We have left some space on the bottom of the wall, as every few months another person is added to the list, having lived in Nassau County at one point in their life.

These are our loved ones. They are the reason we built this Memorial.

It is our sincerest hope this memorial will help make certain that the events of September 11th are always foremost in our thoughts.

Thank You For Your Support!

Our Thanks...

Union Volunteers

(in alphabetical Order)

This next section lists the names of the volunteers who worked on this project. These men and women, who are all members of Long Island's labor movement, over 450 of them, literally spent thousands of hours, weekends, days off and summer months, working on this project.

Their tireless efforts, hard work and dedication deserves our thanks, respect and admiration. They stepped up when we needed them and, without them, this project would never have been completed.
