FISCAL 2013–2016 MULTI-YEAR FINANCIAL

EXECUTIVE SUMMARY

OVERVIEW

The Multi-Year Financial Plan (MYP) is used to guide decision making and long-term planning. Given the current economic conditions and high levels of taxation in Nassau County, the Mangano Administration will continue to place increased emphasis on identifying cost saving measures, practice strict fiscal discipline, and implement strategies that ensure long-term fiscal stability.

The out-year gaps identified in this Adopted 2013-2016 MYP are smaller than those projected in recent years. On January 1, 2010, Edward P. Mangano was sworn in as the County Executive of a government that was saddled with unaffordable labor contracts that extended to 2016, a broken assessment system that produced a \$100 million average annual new liability to taxpayers, and a stagnant economy that saw dramatic declines in sales tax revenues. These items collectively created a fiscal storm.

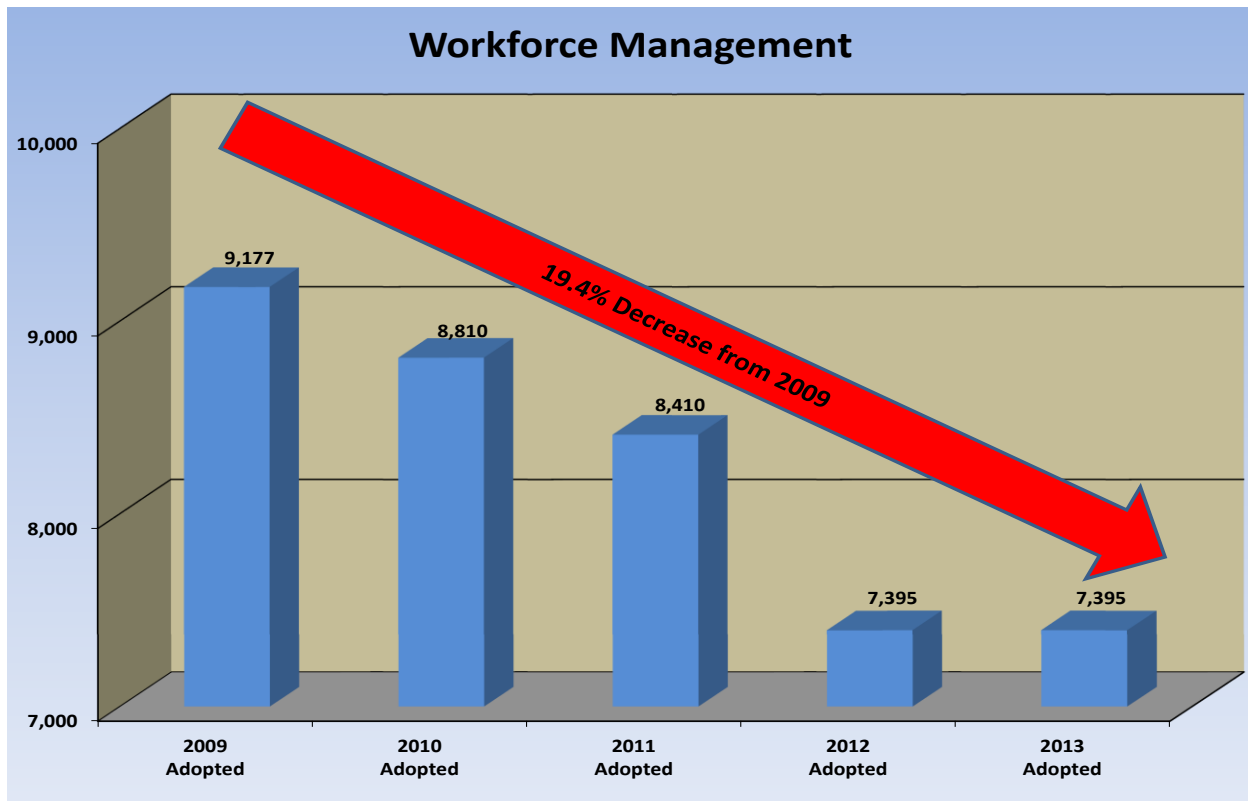

Despite record setting pension increases, rapidly escalating costs for employee and retiree health insurance and increased costs for various programs mandated by New York State, County Executive Mangano has proposed three consecutive budgets that controlled spending and did not raise property taxes. This was accomplished as a result of successful cost-cutting efforts during the first three years of his Administration. Some of the many accomplishments that have resulted in significant savings include:

- Reducing the County's budgeted workforce by 20% to the County's lowest headcount in memory;
- Consolidating police precincts from eight to four;
- Eliminating the County Guaranty for tax certiorari judgments and settlements;
- Creating a Public-Private Partnership for the delivery of bus services; and
- Creating a Public-Private Partnership for the delivery of healthcare services at the Correctional Center.

It is notable that since 2010 County Executive Mangano has fostered a government with less spending and fewer employees, including appointed positions. Compared to 2009, Nassau County budgets \$18 million less on contracts and has 20% fewer positions, including 40% less appointed positions.

The chart below illustrates the workforce reduction that has taken place since 2009.

The coupling of this workforce reduction with a NIFA imposed wage freeze has enabled the County to avoid the large increases in salaries and wages that would have resulted from the labor contracts.

Advances in technology and communications have enabled the County to consolidate police precincts from eight to four without compromising public safety. This consolidation saves Nassau taxpayers \$20 million annually. In addition, the Community Policing Plan maintains all 177 patrol cars in their current neighborhoods, assigns 48 more police officers to patrol positions for a total of 88 more officers assigned to patrol since 2010, and redistributes administrative workloads more evenly among the four new precincts.

On January 1, 2012, the Mangano Administration entered into a successful Public-Private Partnership with Veolia Transportation that delivers bus service to Nassau residents at a cost that is \$33 million less than what the MTA proposed and provides significant operational benefits. Previously the MTA did not achieve approximately 15% of scheduled bus deployment on a daily basis. The Public-Private Partnership with Veolia Transportation has improved deployment and on-time performance.

FISCAL 2013–2016 MULTI-YEAR FINANCIAL

The Mangano Administration was also able to generate savings for taxpayers by entering into a Public-Private Partnership for the delivery of inmate healthcare services at the Nassau County Correctional Center. The initiative with Armor Correctional Health Services commenced in May 2011 and is generating annual savings for taxpayers of \$7 million.

Discussion of Gap Closing Actions

Sale of Surplus County Property and Office Consolidation

Consistent with past experience, the County will continue to realize revenue by selling surplus County property and will work with the Office of Real Estate to identify opportunities for office consolidation that have arisen from the workforce reduction that has been achieved over the past three years.

Labor Concessions

The County anticipates savings from labor concessions in various areas (e.g., employee contributions to health insurance) and from attrition as it continues to right-size its workforce.

Strategic Sourcing and ERP Implementation

The County is pursuing efficiencies and savings through strategic sourcing and ERP implementation. Both of these initiatives are underway and were recommended by Grant Thornton LLP in its NIFA commissioned report.

Social Innovation Bonds

The County will be seeking investment from a mix of philanthropic donors and private investors in which a commitment is made to pay for improved social outcomes that result in public sector savings. Examples of areas that could benefit from this funding include prison recidivism, juvenile detention and public housing.

Improve Detainee to Staff Ratio at Correctional Center

The County will seek savings by improving the detainee to staff ratio through a review of service levels provided to inmates, an analysis of the physical layout of the Correctional Center and a study of staff deployment.

Elimination of MTA Payroll Tax

The Nassau County Supreme Court recently ruled the MTA Payroll Tax unconstitutional. This payroll tax on Nassau County employers costs the County approximately \$3 million annually and impacts businesses in Nassau County by up to \$100 million.

207 C Reform

Cases falling under General Municipal Law (“GML”) 207 present a particular challenge to the self-insured municipal employer. The County will continue to partner with its Third Party Administrator to seek ways to achieve additional savings. Potential for savings exist through enhanced training, the furtherance of “light duty” to enable claimants to return to work rather than prolong their out of work status, and increased efforts to reduce the “occasional absence or ½ days”.

Increase in Parking Ticket Fines

The County anticipates receiving additional revenue from increases in ticket fines beginning in 2015.

New York State MYP Initiatives

Efficiencies in Early Intervention/Special Education

Recent audits performed by the New York State Comptroller highlight skyrocketing costs and fraud within pre-school special education programs throughout New York State. The County believes that numerous cost containment opportunities exist within these programs and looks to partner with NYS in this effort.

Various NYS Initiatives (e.g., Assessment reforms and speed cameras at school crossings)

The County will be seeking NYS legislation to improve the assessment process (e.g., enacting a reasonable basis proposal for residents and businesses filing assessment claims).

The Nassau County Red Light Camera Program has enhanced public safety for Nassau County residents. The County will study methods to further enhance public safety (e.g., installing speed cameras at school locations and at red light camera locations).

Contingency

Nassau County Sewer System P3

While the County has been able to reduce salaries and wages over the past three years, it has encountered explosive growth in fringe benefit costs, most notably escalating costs for employee pension and health insurance costs. Pension costs alone have increased approximately \$100 million over the past three years.

Although no proceeds have been budgeted in the MYP, Nassau County is continuing to explore options to engage the private sector in the operations of the County's sewer system (the "System"). Proceeds from a Public-Private Partnership ("P3") or asset sale could eliminate an estimated 25% of the County's overall debt, a significant reduction that would result in lower debt service payments for years to come.

Since the consolidation of 27 collection and 3 disposal districts in 2004, the System has effectively consumed the fund balance of each prior district and utilized it to mask the true cost of operating the System. The System has suffered from poor planning and maintenance, and a decade of underinvestment. Overall, this has resulted in poor operations and unlawful discharges resulting in DEC fines.

In a P3 Transaction or sale, the County would receive an upfront payment from a private investor as compensation for transferring operations of the System to that investor. In return, the investor

would assume responsibility for all System operations, maintenance and capital expenditures. The County, or another appropriate regulatory entity, would continue to ensure that all regulatory standards are met.

The preliminary findings from the County's RFP for a sewer operator and RFI for a concessionaire indicated that County residents would benefit greatly. Most significantly, a private operator would save money for Nassau residents as opposed to the status quo. In addition, residents would receive better and more reliable service and would realize environmental benefits for the County's wetlands and waterways.

Relevant Precedents

Several communities across the U.S. are currently considering the Public-Private Partnership model similar to what Nassau County is contemplating for the System. These communities share the common goals of ensuring long-term operating performance while at the same time stabilizing rates and obtaining the capital needed to reduce current debt, make immediate system improvements and fund future capital improvements needed to maintain the utility infrastructure in proper working condition to maintain service levels.

The private sector's activity in this type of partnership creates significant value due to its ability to operate more efficiently and deliver capital projects more efficiently. This level of efficiency results in significant savings in annual operating costs.

Some examples of current projects that are moving forward include:

Harrisburg, PA

In April 2012, the City of Harrisburg received Statements of Qualifications from private firms in response to an RFQ to manage and/or operate The Harrisburg Authority's water, wastewater and storm water systems. In May, four proposers were deemed qualified by The Office of the Receiver for the City of Harrisburg and The Harrisburg Authority to participate in Phase II of the project, which includes a Request for Proposals.

Allentown, PA

In August 2012, the City of Allentown selected seven pre-qualified firms to move forward in the RFP process to compete for a concession to operate the water and wastewater system. The result of the RFP will be the granting to the successful proposer the exclusive right to operate the systems and to collect water and sewer revenues under a concession agreement over a term currently anticipated to be 40 years.

¹ Estimated borrowing need

² Assumptions above were used to generate budget for debt service; size and timing of actual borrowing will vary.

³ As warranted, the County may substitute Bond Anticipation Notes for Bonds to finance the Capital Improvement Plan

⁴ Projects for the SSWRD may be funded through borrowing from either the County, NYS EFC, or the NC SSWFA.
