

BRUCE A. BLAKEMAN

NASSAU COUNTY EXECUTIVE

LET'S SAVE A LIFE, TOGETHER.

LEARN:

- The signs of an opiate overdose;
- How to reverse an opiate overdose;
- About new treatment approaches.

Every day, at least one Long Islander dies from an opiate overdose. And those are only the ones we know of - the ones directly caused by Heroin or prescription painkillers such as Percocet or Oxycodone.

About 7 out of 10, died at home.

Overdoses can happen to anyone. We will give you for FREE, the overdose reversal agent, Naloxone - and we'll show you how and when to use it. We'll also tell you about Nassau's newest and effective treatment

approaches - including injectable, extended-release Naltrexone; and integrated care.

LET'S SAVE A LIFE, TOGETHER

Tuesday September 10, 2024
