To Ms. Schaefer and Nassau County Legislators:

As a resident of Garden City, I strongly urge you to draw Nassau County districts in a fair and proportionate manner, assuring appropriate representation for people of color, particularly Black and Hispanic voters. Gerrymandering that dilutes "minority" residents' voting power is unjust and undermines the principle of democratic representation.

Thank you,

Fred Smith, MD  
10 Cambridge Avenue, Garden City

To the Legislature of Nassau County,

I am reaching out today to ask you to please follow the law passed by Gov. Hochul (S.5160-B/A.229c.

Specifically as outlined in the press release, "[that] Districts are not drawn with the intent or result of denying equal opportunity of racial or language minority groups to participate in the political process;" especially when dealing with districts like my own district 14 -which tends to link communities that tend to exclude and then perpetuate structural racism in the county.

Towns like mine are surrounded by diverse neighboring communities where we all shop and spend time- same as those who come to my community. We can do better in Nassau County drawing up voting blocks that are a fair representation of the geographic area. This will allow for more creative thinking and progress for all the communities in close proximity to each other. In Nassau County we should be a leader in this way and show the rest of the country how NYers manage voting fairness.

Cristina Kilberg  
Garden City NY

To the Legislature of Nassau County,

I implore you each to follow the law passed by Gov. Hochul (S.5160-B/A.229c) and particularly, as outlined in the press release, "[that] Districts are not drawn with the intent or result of denying equal opportunity of racial or language minority groups to participate in the political process;" such that districts like my own district 14 (which explicitly exclude Black, Brown, and Latine folks in a way which perpetuates structural racism in the county) can be both undone and not recreated, and that the current obviously political districts aren't expanded or worsened in this sense.

Sincerely,  
Jigisha Motwani
