RE: Proposed changes to legislative map

TO WHOM IT MAY CONCERN:

This letter serves to notify you of my opposition to the proposed changes to the existing legislative map. I do not believe that the proper research and consideration was put into the newly proposed map. I believe that the map was drafted with bias and disregard for certain group. The proposed map does not take into account the many subgroups of citizens that live in the County. Nassau County is made up of many many diverse groups, and those groups along with the majority group deserves fair and equal representation. The pockets of diverse communities that have settled in particular areas should not be cancelled out by a majority of people that believe that their interest is more important for point of view is better. I believe that would happen if the newly proposed map is instituted. We elect representatives in faith and with hopes that they will represent all communities without favoring one over others.

I respectfully request that you do what is honorable and fair so that *all* tax-paying citizens of the County are represented. The newly proposed map does not do that.

Respectfully,

  
Stacy Clark
