Nassau Hub Transit Initiative - Alternatives Analysis Update Report Release

The Nassau County Department of Public Works is proud to release the Nassau Hub Transit Initiative Alternatives Analysis Update Report. The report and a presentation providing an overview of the analysis process can be found at www.nassauhubtransit.com. The Nassau Hub Transit Initiative identifies a bus rapid transit (BRT) service to address congestion and create enhanced connectivity between major destinations and the Long Island Rail Road (LIRR).

The Alternatives Analysis Update Report examines opportunities for transit improvements within the Nassau Hub area and recommends a Locally Preferred Alternative (LPA) that extends BRT service from the Rosa Parks-Hempstead Transit Center to the LIRR Main Line. The LPA was selected from a range of BRT alternatives to address congestion, and to create enhanced connectivity between major destinations and the LIRR.

Comments on the Alternatives Analysis Update Report can be shared by emailing info@nassauhubtransit.com between now and November 8th 2024.
